

# Mehmetcan Bozkuş

Junior Software Engineer

## 👤 Profile

Hello, I'm Mehmetcan. I've been actively working on projects in Java, Python, and C languages. I'm always focused on enhancing my skills in these domains and excited about delving into new programming languages, platforms, and fields. Looking forward to exploring more!

## 💼 Internships

### Software Engineer Intern at Turkcell, Hibrit

August 2023 — Present

As a software engineer intern at Turkcell, I contributed to the Cloud Backup team, focusing on Veeam application tasks. My role involved Python development for Veeam Backup & Replication REST API functionalities.

## ★ Projects

Bank Automation System - Java/Swing

Spell Checker App - Java/Swing

Stock Control System - Java/Swing

ChatGPT CLI Client - Python

...
