Mehmetcan Bozkuş

Junior Software Engineer

👤 Profile

Hello, I'm Mehmetcan, I live in Istanbul, I'm a 2nd year Computer Engineering student at Fatih Sultan Mehmet University...

Outside of school, I have worked on projects in Java, Python, and C languages, constantly striving to improve my skills in these areas. I am also eager to explore different programming languages in the future. I am a creative and innovative individual looking to gain real-world experience by participating in exciting projects. With a strong aptitude for teamwork, quick learning abilities, and a deep passion for technology.
